TABLE OF CONTENTS

NUMBER 1, FEBRUARY 1957

NAORA, H., Microspectrophotometry of cell nuclei stained with Feulgen reaction. III. The DNA content of individual nuclei of rat tissues in the postnatal growth 1

DAVIS, MARGUERITE and SMITH, C. L., The irradiation of individual parts of single cells in tissue culture with a microbeam of α-particles. I. Apparatus 15

FJELDE, AUDREY, The growth pattern of human cancer cells in tissue culture with *Mycobacterium tuberculosis* 35

ZEITLER, E. and BAHR, G. F., Contributions to the quantitative interpretation of electron microscope pictures 44

DE ROBERTIS, E. and FRANCO RAFFO, H., Submicroscopic organization of the mitochondrial body and other cytoplasmic structures of insect testis. . 66

SEVASTIKOGLOU, J., A study on endochondral osteogenesis in tissue culture. A preliminary report 80

SCHERR, G. H., Studies on the dimorphism of *Histoplasma capsulatum* I. The roles of -SH groups and incubation temperature. 92

KRUSZYNSKI, J., Species differences in the brush borders of kidney and intestine as revealed by refractometry with the phase microscope. 108

O'HERN, E M. and HENRY, B S., Some cytological observations on the effect of ribonuclease on *Coccodioides immitis* 115

MCLEISH, J., BELL, L. G. E., LA COUR, L. F. and CHAYEN, J., The quantitative cytochemical estimation of arginine 120

PRESCOTT, D. M., Change in the physiological state of a cell population as a function of culture growth and age (*Tetrahymena geleii*). 126

FAURÉ-FREMIET, E., ROUILLER, CH. and GAUCHERY, M., La réorganisation macronucléaire chez les *Euplotes*. Étude au microscope électronique. . 135

IMMERS, J., Cytochemical studies of fertilization and first mitosis of the sea urchin egg 145

VORBRODT, A., The effect of some inhibitors of oxidative phosphorylation on the histochemically demonstrable phosphatases 154

LINDEGREN, C. C. and HINO, S., The effect of anaerobiosis on the origin of respiratory-deficient yeast 163

SHANNON DANES, B., Suspension cultures of strain L mouse fibroblasts. I. A glass stirrer apparatus for the cultivation of cell suspensions 169

BRIEF NOTES

HELLSTRÖM, K. E. and NILSSON, O., *In vitro* investigation of the ciliated and secretory cells in the rabbit Fallopian tube. 180

DE, D. N., Ultrastructure of nuclear membrane of plant cells 181

PERLMANN, P. and COUFFER KALTENBACH, JANE, Quantitative changes in soluble protein antigens during early development of the sea urchin. 185

WALLGREN, G. and HOLMSTRAND, K., Technical considerations on quantitative microradiography on bone 188
EMMELOT, P. and BOS, C. J., The effect of thyroxine on the swelling of mitochondria isolated from normal and neoplastic livers 191
PRESCOTT, D. M., The nucleus and ribonucleic acid synthesis in amoeba . . . 196
ENGSTRÖM, A. and LUNDBERG, B., A simple midget X-ray tube for high resolution microradiography 198
NAKAMURA, N., Methylthioadenosine, a growth factor for *Endamoeba histolytica* 200

NUMBER 2, APRIL 1957

DAOUST, R., Localization of deoxyribonuclease in tissue sections. A new approach to the histochemistry of enzymes 203
PAUL, J. and PEARSON, ENID S., Metabolism of chick embryonic heart explants during transition from *in vivo* to *in vitro* conditions 212
PAUL, J. and PEARSON, ENID S., Metabolism of chick embryonic liver explants during transition from *in vivo* to *in vitro* conditions 223
WOLMAN, M., The reaction of osmium tetroxide with tissue components. . . . 231
WOLMAN, M., A method for staining tissue and cell membranes. Producing histological pictures similar to those obtained by current electron microscopy methods 241
ENGLAND, MARTA CANCIO and MAYER, D. T., The comparative nucleic acid content of liver nuclei, ova nuclei and spermatozoa of the frog. 249
BOMSTEIN, R. A. and STEBERL, E. A., The utilization of phospholipides by bovine spermatozoa 254
GEZELIUS, KERSTIN and RÅNBY, B. G., Morphology and fine structure of the slime mold *Dictyostelium discoideum* 265
HULTIN, T., Characteristics of extracts from liver microsomes. 290
SIMINOVITCH, L., GRAHAM, A. F., LESLEY, S. M. and NEVILL, ANN, Propagation of L strain mouse cells in suspension. 299
RUTH, R. F., MAKINODAN, T. and WOLFE, H. R., The cytochemical morphology of the production of antibody. 309
PELC, S. R., On the connection between the synthesis of RNA and DNA in the testis of the mouse 320
AFZELIUS, B. A. and MURRAY, ASSIA, The acrosomal reaction of spermatozoa during fertilization or treatment with egg water. 325
JUNQUEIRA, L. C. U., ROTHSCHILD, H. A. and FAJER, A., Protein production by the rat pancreas 338
BAHR, G. F., BLOOM, G. and FRIBERG, U., Volume changes of tissues in physiological fluids during fixation in osmium tetroxide or formaldehyde and during subsequent treatment. 342
FINAMORE, F. J., A study of a contaminant in amphibian egg extracts which interferes with the diphenylamine reaction for deoxyribonucleic acid. . . 356
FORRO, F., JR., Distribution of radioactive phosphorus among the progeny of a single labeled bacterium 363
RUNNSTRÖM, J., On the effect of porphyrexid and porphyrindin on the fertilization of the sea urchin egg 374

BRIEF NOTES

OHNO, S., KAPLAN, W. D. and KINOSITA, R., Conjugation of the heteropycnotic X and Y chromosomes of the rat spermatocyte 395
CHAPMAN-ANDRESEN, Cicily, Some observations on pinocytosis in leucocytes 397
POLICARD, A., COLLET, A. et PREGERMAIN, S., Observations au microscope électronique sur les modifications du cytoplasma au contact des particules de silice colloïdale 400
SCARANO, E. and MAGGIO, R., An exchange between ^{32}P-labeled pyrophosphate and ATP catalyzed by amino acids in unfertilized sea urchin eggs. . . . 403
SVENSSON, G., A scanning interference microphotometer. 406
DE VILLAFRANCA, G. W., Observations on the anisotropic band of cross-striated muscle 410
HULTIN, T., Acid-soluble nucleotides in the early development of *Psammechinus miliaris* 413
MCDONALD, M. R. and KAUFMANN, B. P., Production of mitotic abnormalities by ethylenediaminetetraacetic acid 415
PERLMANN, P. and HAGSTRÖM, B. E., Cortical inhibitions and polyspermy in antiserum-treated sea urchin eggs 418
VINCENT, J., Corrélation entre la microradiographie et l'image en lumière polarisée de l'os sécondaire. 422
MARKMAN, B., Studies on nuclear activity in the differentiation of the sea urchin embryo 424

NUMBER 3, JUNE 1957

VON WETTSTEIN, D., Chlorophyll-letale und der submikroskopische Formwechsel der Plastiden. 427
GOLDMAN, D. E. and LEPESCHKIN, W. W., Injury and recovery of *Spirogyra* exposed to ultrasound. 507
HULTIN, T., The metabolic utilization of C^{14}-formate in sea urchin embryos. . 518
RUNNSTRÖM, J. and KRISZAT, G., The solidifying effect of certain oxidation-reduction indicators on the surface of the unfertilized sea urchin egg. . . 526
SACKS, J., JOHNSTON, P. M., MORTON, Jo H. and HARVEY, JAQUELIN, A. N., The intracellular distribution of liver glycogen 537
PERRY, R. P., Changes in the ultraviolet absorption spectrum of parts of living cells following irradiation with an ultraviolet microbeam. 546
MELLORS, R. C., ORTEGA, L. G., STOHOLSKI, A. and HLINKA, J., Quantitative cytology and cytopathology VI. Chromosomal mass in germinal cells and in cancer cells of the mouse 560
DE ROBERTIS, E. and VAZ FERREIRA, A., Electron microscope study of the excretion of cathecol-containing droplets in the adrenal medulla 568
DE ROBERTIS, E. and VAZ FERREIRA, A., A multivesicular cathecol-containing body of the adrenal medulla of the rabbit 575
DEELEY, E. M., DAVIES, H. G. and CHAYEN, J., The DNA content of cells in the root of *Vicia faba*. 582
ENGSTRÖM, A., LAGERGREN, C. and LUNDBERG, B., Determination of strontium and calcium in bone by X-ray absorptiometry 592

MARSHAK, A., Nuclear swelling in *Asterias* eggs and its relation to the passage of materials into and out of nuclei 59
SALZEN, E. A., The density of sea urchin embryos and larvæ 61
STENRAM, U., Interferometric dry matter determinations on liver nucleoli of protein-fed, protein-deprived, and thyroid-fed rats 62
LAWRENCE, J. C. and RICKETTS, C. R., The metabolic uptake of sulphate ions by skin 63
BACQ, Z. M., VANDERHAEGHE, F., DAMBLOM, J., ERRERA, M. et HERVE, A., Effets des rayons X sur *Acetabularia mediterranea* 63
SKREB, Y. et ERRERA, M., Action des rayons U. V. sur des fragments nuclées et anuclées d'amibes 64

BRIEF NOTES

HALE, C. M. E., A note on the relationships between the Gram reaction and plasmolytic effects in bacteria 65
GUIDOTTO, G., Turnover of the sulphate groups in mast cells of young and adult rats. Quantitative autoradiographic study 65
REGER, J. F., The ultrastructure of normal and denervated neuromuscular synapses in mouse gastrocnemius muscle 66
LARSSON, S., A mechanical micro-scanner 66
LEESON, T. S., The fine structure of the mesonephros of the 17-day rabbit embryo 67
PHELPSTEAD, J. W. P. and RODYN, D. B., A device for separating fractions after gradient density centrifuging 67
HULTIN, T., VON DER DECKEN, A. and BESKOW, G., The effects of ribonuclease and other basic proteins on the incorporation of C^{14}-L-leucine into liver proteins *in vitro* 67
MEYER-ARENDT, J. R. and HORAVA, A. P., Light scattering studies on singular ascites carcinoma cells 67
YASUZUMI, G. and TANAKA, H., Electron microscope studies on the fine structure of the ovary, I. Studies on the origin of yolk 68
GREULICH, R. C. and FRIBERG, U., Histochemical studies of sulfo-mucopolysaccharides in the organic matrices of mineralized tissues 68
CAMPBELL, P. N., GREENGARD, OLGA and JONES, H. E., The intracellular distribution of amino acid incorporation by slices of liver and liver tumours and by ascites cells 68
ROSENBERG, A. M. and WOOD, T. H., The modifying effect of culture age on heat sensitivity of yeast 69
